WISCONSIN FEDERAL MILK ORDER BULLETIN

2 1965

for the Milwaukee, Northeastern and Madison Marketing Areas

C. T. McCleery - Market Administrator

MAY 1965

MILK SUPPLY FOR NORTHEASTERN WISCONSIN

In order to give some measure of description to the milk supply area for pool plants under the Northeastern Wisconsin marketing order, we have prepared two tables (page 8). One table has average monthly data for the year 1964 and the other has similar data for 1963.

The information is by each county source and shows the name of the county wherein farms are located, the average monthly producer milk in thousand pounds, the average number of farms and average pounds of daily delivery per farm. Counties supplying less than one million pounds per month are grouped under "Other" to avoid disclosing confidential information. One such county is in Michigan, Menominee county.

Brown county is well in first place (to page 8)

CANADA CHANGES DAIRY POLICY

The Canadian Minister of Agriculture announced a new dairy policy in March to provide a national average return to producers of $3.50 ($3.26 in U.S. money) per 100 pounds for domestically-used manufacturing milk.

The interim support, effective May 1, 1965, through March 31, 1966, will be attained by 2 separate programs. First, a deficiency payment plan coupled with the present direct subsidy and export assistance will provide a basic support. The second program will authorize a supplementary payment to producers. In addition, the Government will seek legislation to establish a Canadian Dairy Commission. The proposed Commission would work in cooperation with Provinces and would have responsibility for the overall relationship between (to page 8)

for pounds of milk supplied to the market. Second and third place Manitowoc and Oneida counties switched places from 1963 to 1964. Actually only two counties are in the same position on each year's list.

Generally there are less farms in each county in 1964 than in 1963. Nearly all farms delivered more milk per farm, however, in 1964. The largest farms in each year were in Sheboygan county.
